OBJECTIVE

Top performing, highly motivated, solution-focused self-starter with very strong organizational and prioritization skills looking to integrate my military, civilian, and coding experience into a remote position that will allow me to utilize my skills of technical knowledge, interpersonal communication, creativity, and programming in order to be an integral part of a company's overall success.

SUMMARY OF QUALIFICATIONS

- Eight years of progressive experience within the United States Air force with an emphasis in the maintenance of fighter aircraft.
- Five years of experience working with hydraulic and pneumatic systems as well as pumps and various types of valves.
- Experience with reading schematics and blueprints.
- Demonstrated history of successfully managing small to large projects from start to finish.
- Collaborator who possesses the ability to coordinate/lead a team while still being a strong individual contributor coupled with excellent communication skills, both oral and written.
- Proficient in the use HTML, CSS, JavaScript, C#, SQL, .NET, MVC, Angular.js, Visual Studio, and VS Code.
